TIBCO Educational Services

BW611: TIBCO ActiveMatrix BusinessWorks™ 5.x Integration Boot Camp

COURSE OVERVIEW
TIBCO ActiveMatrix BusinessWorks™ is TIBCO’s enterprise platform for implementing world-class integration solutions. In this boot camp participants acquire key skills needed to solve integration challenges using this platform. After learning the fundamentals of ActiveMatrix BusinessWorks™ software, participants work through a series of focused, hands-on labs to implement an order processing integration solution. During the course of implementing this solution, participants acquire important ActiveMatrix BusinessWorks™ software developer skills including managing development projects, process design and testing, resource configuration and data mapping, application validation, deployment monitoring, and domain management and administration. Fundamentals of messaging and TIBCO® adapters are also covered.

LEARNING OBJECTIVES
• Describe TIBCO integration technology and terminology
• Learn ActiveMatrix BusinessWorks™ software fundamentals, including tools and components
• Examine project development, deployment and management features
• Formulate methods, considerations and best practices for building ActiveMatrix BusinessWorks™ software based solutions
• Gain hands-on ActiveMatrix BusinessWorks™ software proficiency developing, testing and implementing a solution incorporating messaging, process automation, web and adapter services
• Deploy, monitor and manage applications and the integration domain

COURSE TOPICS
• Introduction to TIBCO solutions and technology
• ActiveMatrix BusinessWorks™ software fundamentals (develop > deploy > manage)
• Strategies and best practices for building integration solutions
• ActiveMatrix BusinessWorks™ web services and process automation
• ActiveMatrix BusinessWorks™ messaging and TIBCO® adapter services
• Extending ActiveMatrix BusinessWorks™ project and process functionality
• Deploying and managing a ActiveMatrix BusinessWorks™ software integration solution

COURSE PREREQUISITES
• Knowledge of basic XML
• Familiarity with XPATH, XSD, WSDL and SOAP would be useful
